Each cell shows this style set's specified measurement, the deviation the inspector called against it, and how confidently that was transcribed. **ok** means the inspector said okay; every stated deviation is shown, whether or not it falls inside the tolerance band. **An orange outline = outside tolerance. Blue figures = heard with under 100% confidence, so confirm against the recording. The two are independent: an outlined cell with blue figures is out of tolerance and wants checking. Grey = a size marked * that this inspection did not measure, so the specification is shown alone. Those carry no reading.**
